DOST-SETUP Support Helps Tawsen Agri Ventures Navigate Growth, Crisis and Recovery

DOST's Small Enterprise Technology Upgrading Program (DOST-SETUP) has helped Tawsen Agri Ventures improve its products, expand its operations, and navigate major setbacks brought by the COVID-19 pandemic and a fire that disrupted its planned expansion.

For owner Dennis I. Lim, the program's support went beyond the provision of equipment, extending to continued assistance as the business worked through financial and operational difficulties. Established in 2005, Tawsen Agri Ventures initially operated as a printing and packaging enterprise before expanding into food processing and developing products using locally sourced resources from Batanes.

In 2014, Tawsen availed itself of its first DOST-SETUP assistance, acquiring printing equipment that allowed the business to produce tarpaulins, product labels, and packaging materials for its processed food products.

Lim said the intervention improved the presentation and marketability of Tawsen's products, contributing to an estimated 200 to 300 percent increase in sales as the improved packaging coincided with the growth of tourism in Batanes.

The business also increased its workforce from three to five employees and eventually expanded into other ventures, including a hotel and restaurant.

Tawsen's product line grew to include locally produced wine, turmeric and ginger products, and wakay or sweet potato chips, creating additional market opportunities for agricultural products sourced from the province.

Building on the gains from its first intervention, Tawsen availed itself of DOST-SETUP Phase 2 in 2019 to pursue a larger expansion. Lim envisioned a two-storey facility that would integrate food production and tourism. The ground floor was planned as a production area where visitors could observe the processing of Tawsen products, while the second floor was intended as a museum and showcase for locally produced goods from Batanes.

The expansion, however, was disrupted by the COVID-19 pandemic, which brought tourism to a standstill. Tawsen later faced another setback when a fire damaged the business.

The successive challenges prevented the enterprise from fully realizing its Phase 2 plans, while its recovery in the tourism market has remained a continuing challenge.

Despite these setbacks, Lim said DOST continued to support the enterprise instead of leaving it to deal with the difficulties on its own. Assistance included flexibility in payment arrangements, giving Tawsen additional time to address its obligations while working toward recovery.

"All-out pa rin ang support nila. Nagbibigay sila ng extension of payment. Hindi sila nagpabaya sa mga clients nila," Lim said.

For Lim, the experience highlighted another important aspect of DOST-SETUP: its role as a continuing partner of enterprises, particularly when businesses encounter circumstances beyond their control.

Tawsen Agri Ventures' experience illustrates the challenges faced by small enterprises in island communities, where tourism, market access, and other external conditions can significantly affect business operations. At the same time, its journey shows how technology upgrading and sustained institutional support can help enterprises build capacity and pursue recovery after major disruptions.

Despite the setbacks, Lim remains appreciative of the assistance that helped Tawsen improve its operations and develop new products using Batanes' local resources.

"SETUP has opened more opportunities for product development for us," he said. For Tawsen Agri Ventures, the journey continues, with DOST-SETUP remaining a partner not only in business growth but also in rebuilding and moving forward after adversity.

Participants learned about the recruitment, screening, and training of sensory panelists, as well as the requirements for conducting reliable sensory tests. These included preparing an appropriate testing environment and ensuring the proper preparation and presentation of food samples.

The training also included a hands-on session where participants applied the concepts through actual sensory testing.

Using the hedonic test, participants evaluated longanisa and two locally produced wine samples to determine their overall acceptability. They also compared juice samples based on consumer preference, giving participants direct experience in gathering sensory data that can be used to assess and improve food products.

The practical exercises demonstrated how sensory evaluation can provide producers with information on how consumers perceive their products and which characteristics may need to be improved before they are introduced or further developed for the market.

By combining technical discussions with actual food testing, the training provided local stakeholders with basic skills they can apply in developing products that better respond to consumer preferences.

The activity was part of the October 1 to 9, 2026 STI Caravan of DOST PSTO-Batanes, which brings science, technology, and innovation programs and services closer to communities across the province.

Through initiatives such as the sensory evaluation training, DOST continues to support Batanes food producers and other stakeholders in applying science-based approaches to product development, quality improvement, and market readiness. (Nelson Santos)

The training formed part of the 2026 Science, Technology and Innovation (STI) Caravan in Batanes and introduced participants to scientific methods for assessing food products based on consumer preferences and acceptability.

The activity was designed to help participants understand how sensory evaluation can be used in product development and improvement, particularly in identifying consumer responses to a product's sensory characteristics.

Frankie Lycurgus D. Avorque, a Professional Food Technologist and Certified Sensory Evaluator from DOST-FNRI, served as the resource speaker. He discussed the fundamentals of sensory evaluation and its application in food product development, including the development of sensory panels and the proper conduct of sensory tests.

Participants learned about the recruitment, screening, and training of sensory panelists, as well as the requirements for conducting reliable sensory tests. These included preparing an appropriate testing environment and ensuring the proper preparation and presentation of food samples.

Local food producers, researchers, academe representatives, government personnel, and other food industry stakeholders in Batanes gained practical knowledge in assessing food products through sensory evaluation during a training conducted by the Department of Science and Technology Provincial Science and Technology Office-Batanes (DOST PSTO-Batanes) and the DOST-Food and Nutrition Research Institute (DOST-FNRI) on October 2, 2026.

DOST-FNRI Trains Batanes Food Stakeholders on Sensory Evaluation to Boost Product Quality

Marcos, kinumpirmang tinanggap ang pagbibitiw ni Aguda

Kinumpirma ni Pangulong Ferdinand Marcos Jr. na tinanggap na niya ang pagbibitiw ni Information and Communications Technology Secretary Henry Aguda, ngunit ipinagpaliban umano ng Malacañang ang anumang habang naghahanap ng kapalit nito. Rate Card

Sa isang panayam, sinabi ni Marcos na nais muna ng Palasyo na matukoy ang susunod na mamumuno sa Department of Information and Communications Technology (DICT) bago pormal na ipahayag ang pagbibitiw ni Aguda.

Gayunman, nauna nang ibinunyag ni Ombudsman Jesus Crispin Remulla ang pagbibitiw ng kalihim bago pa ito pormal na maipahayag

ng Malacañang.

Ipinahiwatig din ni Marcos na maaaring may kaugnayan sa nagpapatuloy na imbestigasyon ni Remulla sa mga alegasyon ng mga pekeng proyekto sa internet connectivity ang naunang paglalabas ng impormasyon.

Nilinao din ng pangulo, magkahiwalay na tinutugunan ng Malacañang at ng Office of the Ombudsman ang kani-kanilang usapin kaya hindi nagtugma ang panahon ng kanilang mga anunsyo.

Gayunman, hindi tinukoy ni Marcos kung sino ang ipapalit kay Aguda. Hindi rin niya tahasang sinabi na ang imbestigasyon ang dahilan ng pagbibitiw ng kalihim.

Noong Sabado, inanunsyo ni Remulla na nagbitiw

na si Aguda at tinanggap na ito ng pangulo. Tatlong araw bago nito, sinabi naman ni Palace press officer Claire Castro na nananatili pa sa puwesto si Aguda.

Itinalaga si Aguda bilang kalihim ng DICT noong Marso 2025, bilang kahalili ni Ivan Uy.

Patuloy namang iniimb-

estigahan ng Office of the Ombudsman ang mga alegasyon ng irregularidad sa mga proyekto ng pamahalaan para sa internet connectivity, kabilang ang mga paratang na ginastos ang pondo ng bayan para sa mga serbisyong hindi naman nagbibigay.

DOST XII brings life-changing innovations closer to MNLF communities

On September 22, 2026, the Department of Science and Technology SOCCSKSARGEN (DOST XII) made this vision real during the Service Caravan in Maasin, Sarangani Province. Held at the Municipal Gymnasium and organized by the Office of the Presidential Adviser on Peace, Reconciliation and Unity (OPAPRU) through the MNLF Peace Process Office, the event marked National Peace Consciousness Month and the 30th Anniversary of the 1996 Final Peace Agreement between the Philippine Government and the Moro National Liberation Front (MNLF).

Through the DOST Provincial Science and Technology Office – Sarangani and General Santos City (PSTO-SarGen), the agency brought

practical food technologies developed by the DOST-Food and Nutrition Research Institute (DOST-FN-RI) directly to the people: Iron-Fortified Rice – fighting iron deficiency and anemia Enhanced Nutribun – nutritious bread packed with local vegetables Brown Rice Nutty Fruity Bar – a ready-to-eat snack with brown rice, nuts, seeds, dried fruits & honey Nutricookies – delicious, nutrient-rich cookies

A total of 602 MNLF beneficiaries availed of these technologies, showing how science can improve everyday nutrition and well-being.

The event also spotlighted the Community Empowerment through Science and Technology (CEST) Program — a pathway for organized

MNLF communities to access technologies, capacity-building, and technical assistance tailored to their needs.

In Maasin alone, two organized ex-combatant groups are already thriving under CEST:

One group is advancing smart aquaculture through African catfish fingerling production, another is building a community-based enterprise producing footwear, bags, and clothing using modern technologies

These former combatants are now using Science and Technology not only to create sustainable livelihoods but also to uplift their entire communities — proving that S&T can transform conflict-affected areas into productive, peaceful, self-reliant, and resilient ones.

OPAPRU recognized DOST XII's strong partnership by awarding a Plaque of Appreciation to Regional Director Dr. Sammy P. Malawan, RABE, represented by Supervising SRS For. Nabil A. Hadji Yassin.

From conflict to livelihood... from limited opportunities to productive enterprises... from dependence to empowerment. DOST XII continues to prove that Science, Technology, and Innovation are powerful partners in peace and development.

Through CEST and its ongoing collaboration with OPAPRU, DOST XII remains committed to making S&T accessible and relevant, turning local potential into lasting opportunities for sustainable, empowered, and resilient communities.

Peace is more than the absence of conflict — it's the presence of real opportunities for healthy, productive, and dignified lives.

Local Products in Glo-cal Market: DOST and Lazada PH, Join Forces to Advance Digital Transformation of Local MSMEs

To strengthen the capabilities of Micro, Small, and Medium Enterprises (MSMEs) in e-commerce, the Department of Science and Technology (DOST) and Lazada Philippines continue to expand their collaboration for the digital transformation of local businesses in the country. In the recently held TechnoPreSyensya Episode 16 on September 10, 2026, Mr. Justin N. Madrid, Science Research Specialist II of DOST Ilocos Region, discussed the "Expanding Digital Opportunities for MSMEs" initiative to establish concrete steps in intro-

ducing local products within and outside the country with the help of Lazada PH. Mr. Madrid emphasized that the Memorandum of Understanding (MOU) between the two institutions is a comprehensive ecosystem aimed at helping DOST-assisted MSMEs become competitive. Through this collaboration, business owners receive free onboarding training, digital marketing knowledge, customer engagement, and supply chain management, as well as access to logistics and payment systems from Lazada. He explained that this initiative provides a fair

opportunity for producers in Ilocos Norte, Ilocos Sur, La Union, and Pangasinan to reach customers in Luzon, Visayas, and Mindanao without going through large distributors in Metro Manila.

One of the key challenges discussed was the lack of "digital confidence" or the hesitation to enter online selling due to the lack of knowledge in using smartphones, computers, or running a digital store. Mr. Madrid clarified that it is not necessary to be tech-savvy right away before starting, as the most important thing is the willingness to learn.

With the help of training from Lazada University, MSMEs will be taught from creating seller accounts, taking good product photos, and writing clear product descriptions, up to processing orders and inventory. In addition to training on using the platform, the DOST Ilocos Region also provides support in preparing products to be attractive online. Through various Science, Technology, and Innovation (STI) interventions, the agency helps food and processed products with food safety, packaging and labeling, shelf-life testing, and laboratory anal-

BLESSING AND TURNOVER OF TWO-STORY SCHOOL ANNEX BUILDING

Bulacan Governor Daniel R. Fernando with school officials, teachers, students and community representatives during the blessing and turnover ceremony of the newly constructed two-story school building at Rueda Elementary School in Plaridel, Bulacan on October 1, 2026. INSET: The newly constructed two-story annex school building in Rueda Elementary School.

Halos kalahating milyon na mawawalan ng tubig sa Metro Manila at Bulacan, hindi pa dahil sa Super El Niño

Nilina ng mga awtoridad na hindi pa dulot ng El Niño ang nakatakdang kawalan ng suplay ng tubig, habang higit sa 400,000 customer sa ilang bahagi ng Metro Manila at Bulacan ang makararanas ng water service interruption simula ngayong gabi ng Sabado, Oktubre 10, hanggang bukas ng hapon, Oktubre 11.

Aabot sa 412,000 customer sa mga piling lugar sa Calocan City, Valenzuela City, at Quezon City, pati na rin sa mga bayan ng Meycauayan at Obando sa Bulacan, ang mawawalan ng tubig simula alas-10:00 ng gabi hanggang alas-3:00 ng hapon bukas.

Ayon sa pamunuan ng Maynilad, ang pansaman-

Pulong Duterte kinuwestiyon ang NBI kung bakit kailangan pa ang kaniyang testimonya kaugnay sa alegasyon ng mga deniliver na pera sa kaniyang pamilya

Kinuwestiyon ni Davao City Rep. Paolo "Pulong" Duterte ang pangangailangan sa kaniyang testimonya sa imbestigasyon ng National Bureau of Investigation (NBI) kaugnay ng alegasyon ng dating pulis na si Rodolfo Gracioso Jr. tungkol sa umano'y paghahatid ng mga maleta ng pera sa kaniya at sa kaniyang mga kaanak.

Sa isang pahayag, sinabi ni Duterte na kung mapagkakatiwalaan na ng mga imbestigador ang mga pahayag ni Gracioso batay sa resulta ng polygraph o lie detector test, dapat ay sapat na ang mga ebidensiyang hawak ng ahensiya nang hindi na kailangan ang kaniyang panig.

Kinuwestiyon din ng kongresista kung hindi pa kumpleto ang ebidensya ng mga awtoridad o kung may pagdududa ang NBI sa sarili nitong pagtatasa sa kredibilidad ni Gracioso.

Biniyang-diin niyang

hindi siya ang nagsabing halos tiyak na totoo ang salaysay ni Gracioso, kundi ang mga awtoridad umano.

Nagpadala ang NBI ng imbitasyon kay Duterte nitong Sabado upang humarap sa ahensiya sa Lunes, Oktubre 12, at makatulong umano sa paglilina sa mga alegasyon ni Gracioso.

Ayon sa dating pulis, mahigit P2 bilyon umano ang naihatid niya kay Vice President Sara Duterte, P1 bilyon kay Paolo Duterte. Aniya, isinagawa ang mga paghahatid nang paunti-unti simula noong 2018, alinsunod sa mga tagubilin umano ng dati niyang amo na si dating House Speaker Lord Allan Velasco.

Nagsumite si Gracioso ng sinumpaang salaysay noong Setyembre 14 tungkol sa umano'y paghahatid ng pera sa mga Duterte at

iba pang personalidad. Sumailalim siya sa polygraph test sa NBI noong Setyembre 30 bilang bahagi ng proseso ng ahensiya sa pagsusuri sa katotohanan ng kaniyang mga pahayag.

Gayunman, ang resulta ng polygraph test ay hindi,

sa sarili lamang nito, patunay na totoo ang lahat ng pahayag sa isang salaysay. Patuloy na kinuwestiyon ni Duterte ang pangangailangan sa kaniyang pagharap sa NBI habang isinasagawa ang imbestigasyon.

ysis, while manufacturing and handicraft sectors are supported by equipment upgrading and process improvement. Mr. Madrid emphasized that since customers do not personally see the products, proper product presentation and packaging are crucial while on the road.

The agency also emphasized that having these documents should not be feared, but rather seen as an opportunity to properly establish the business foundation, branding, and identity of the business. The agency is committed to guiding entrepreneurs and engaging with other government agencies and local government units (LGUs) to complete the necessary documents.

To ensure the sustainability or continued growth of the initiative, Mr. Madrid emphasized that the success of the project is not

measured by the number of online accounts engaged, but by the actual increase in sales and expansion of the business. Through continuous learning from customer feedback, improving pricing strategies, and increasing production capacity, local businesses in the region will gradually grow with the help of DOST's technical expertise and Lazada's infrastructure.

As a conclusion, Mr. Madrid left an important challenge and call to all business owners in the region to be bold in trying and not limit their market. The DOST Ilocos Region invites all MSMEs to visit the nearest Regional Office or Provincial Science and Technology Offices (PSTOs) to help them transition to the digital platform and jointly bring local products to the national and international market

JOB VACANCY OF CAPITALONE ENERGY, INC

Career Opportunity in CAPITALONE ENERGY, INC

HEAD COACH – Capital1 Solar Spikers Volleyball Team

(1 Vacancy)

Job Description:

The Coach agrees to perform the duties of a Head Coach and any additional responsibilities assigned by the Team during the Term. He shall devote the required time for weekly practices and scheduled PVL games, including out-of-town matches, and meet periodically with Team management to review policies and address concerns beyond coaching scope.

Qualification (Education, Experience, Professional License, Skills Certification, Specialized Training):

Accomplished Volleyball Coach with extensive experience at the international, national team, or elite professional club level. Candidates should preferably hold a FIVB Coaching Certification or an equivalent high-level international credential. The ideal applicant has a proven track record of success in guiding high-performance athletes through major competitions. Expertise in advanced volleyball tactics, analytics, and player scouting is essential. A comprehensive understanding of volleyball rules, competition formats, and game regulations is required to excel in this role.

Applications may be sent to:
humanresources@capital1energy.com

Company/ Employer	Name of foreign national intending to apply for the position
Company Name: CAPITALONE ENERGY, INC. Complete address: Unit 2706 27th Floor One Corporate Center, Julia Vargas cor. Meralco Ave., Ortigas, Pasig	Name: JORGE EDSON SOUZA DE BRITO Address: San Juan City Nationality: Brazilian Intended period of employment: 2 years
Nature of business: Energy	

CAPITALONE ENERGY, INC. hereby declares that the above-named foreign national is able, willing, and qualified to perform the services and job description for this position. The company has the intention to employ the said foreign national and apply for an Alien Employment Permit with the Department of Labor and Employment - National Capital Region located at 967 Maligaya Street, Malate, Manila.

Joel Villanueva, inalala ang hrap na pinagdaanan ng pamilya sa gitna ng mga alegasyon

Inalala ni Sen. Joel Villanueva ang matinding emosyonal na pagsubok na pinagdaanan niya, ng kaniyang pamilya at ng kanilang relihiyosong komunidad dahil sa mga alegasyon at pag-atakeng pulitikal na kinaharap niya sa nakalipas na taon, kasabay ng pagka-kaugnay ng kaniyang pangalan sa kontrobersiya sa mga maanomalyang flood control project.

Sa kaniyang talumpati sa ika-48 anibersaryo ng Jesus Is Lord (JIL) Worldwide Church sa Maynila nitong Sabado, sinabi ni Villanueva na dumaan siya sa matinding batikos at mga paratang na aniya'y naglalayong sirain ang kaniyang reputasyon at dignidad.

Hindi pinangalanan ng senador ang mga taong pinaniniwalaan niyang nasa likod ng umano'y kampanya laban sa kaniya. Gayunman, sinabi niyang maging ang mga dating kaalyado ay maaaring tumalikod at mag-

ing bahagi ng mga pag-atake sa politika.

Hindi direktang iniugnay ni Villanueva sa kaniyang talumpati ang mga pag-atake sa kontrobersiya sa flood control. Gayunman, nadawit ang kaniyang pangalan sa usapin at naging paksa ng mga imbestigasyon matapos siyang isangkot ng mga dating opisyal ng Department of Public Works and Highways (DPWH) sa mga alegasyon ng pagsingit ng pondo sa badyet at pagtanggap ng kickback mula sa mga proyekto ng pamahalaan.

Paulit-ulit nang itinanggi ni Villanueva ang mga paratang laban sa kaniya.

Ayon sa senador, masakit ang pinagdaanan niyang pagsubok, lalo na nang madamay ang kaniyang pamilya at ang komunidad ng JIL sa kontrobersiya.

Ang JIL ay itinatag ng kaniyang ama na si evangelist at CIBAC party-list Rep. Brother Eddie Villanueva.

Sa kabila ng mga pinagdaanan, sinabi ni Villanueva na nakayanan niya ang mga pagsubok sa pamamagitan ng pananampalataya sa Diyos, na aniya'y nagbigay sa kaniya ng kapayapaan at lakas. Binigyang-diin din niya na higit na mahalaga ang pagsang-ayon ng Diyos kaysa sa papuri ng ibang tao.

Defense team ni VP Sara may sariling panig sa paglalalahad ng unexplained wealth

Tiniyak ni defense spokesperson Atty. Michael Poa na ilalahad ng kampo ni Vice President Sara Duterte ang kanilang panig sa mga alegasyon ng unexplained wealth sa oras na iharap na nila ang kanilang mga ebidensya sa impeachment trial.

Hinimok ni Poa ang publiko na isaalang-alang na ang mga natalakay sa mga pagdinig sa ngayon ay nakabatay pa lamang sa panig ng prosesusyon.

Dalawang weather system, binabantayan sa labas ng PAR

Namataan ang bagyo na may international name na "Koguma" sa layong 2,735 km East Northeast of Extreme Northern Luzon, sa labas ng Philippine Area of Responsibility.

Habang isang tropical depression ang namataan din sa layong 3,035 kilometro silangan ng Southeastern Luzon, batay sa 8: OOA.M weather bulletin update ng weather state bureau ngayong Linggo, Oktubre 11,

2026. Taglay ng Koguma ang lakas ng hangang 175 km/h at pagbusogang aabot sa 215km/h, kumikilos ito pahilagang-kanluran o Northwestward sa bilis na 20 km/h.

Samantala, ang tropical depression, ay may lakas ng hangang 45km/h at pagbusogang aabot sa 55 km/h, kumikilos ito patungong East-northeastward sa bilis na 20 km/h.

Tumanggi siyang talakayin ang mga halaga ng credit card transactions at umano'y mga transaksyon sa ibang bansa, kabilang ang mga may kaugnayan sa isang kumpa, dahil sa sub judge rule.

Ayon kay Poa, hindi magiging patas sa prosesusyon kung ilalabas nila ang mga detalye ng kanilang depensa bago pa man nila maiharap ang kanilang mga ebidensya. Inamin niyang dehado ang depensa sa paghihintay

ng kanilang pagkakataong sumagot, lalo na sa isang kasong may matinding kulay-pulitika. Gayunman, iginiit niyang may sarili ring salaysay na ilalahad ang kampo ni Duterte.

Minority senators na maaring lumipat sa majority bloc, hindi pa tiyak—Sen. Padilla

Wala pa umanong ibang miyembro ng minority sa Senado ang nagpapalaal na nais lumipat sa majority kasunod ng paglipat ni Sen. Mark Villar noong nakaraang linggo, ayon kay Sen. Robinhood Padilla.

Gayunman, sinabi ni Padilla na hindi magtatanim ng sama ng loob ang minority kung may iba pang senador na magpasiyang sumunod sa hakbang ni Villar. Dagdag niya, kakaunti lamang ang mga senador noong unang binuo ang minority bloc, at ang ilan sa mga miyembro nito ay sumali lamang ka-laan. Neong Huwebes, lumipat si Villar sa majority, dahilang upang umabot sa 14 ang mga miyembro ng natatagang grupo. Kasabay nito, nakuha niya ang pamumuno sa Senate Committee on Public Works at naging miyembro rin ng Commission on Appointments.

Ayon kay Padilla, dapat thiwalay ang paglipat ni Villar bilang mambabatas sa kaniyang papel bilang senador-hukom sa impeachment trial ni Vice President Sara Duterte.

na lumahok sa botohan at bumoto kasama ng karamihan sa majority pabor sa pagbabago ng pagkukuwentang kinakailangang boto.

Gayunman, iginiiit ni Zubiri na walang kaugnayan ang naturang botohan sa paglipat ni Villar sa majority, at hindi rin umano dapat ituring na batayan ng boto ng isang senador sa impeachment trial ang kaniyang pagiging miyembro ng majority o minority.

DOTr, patuloy ang pagkalap ng pondo para sa dagdag na tren sa LRT 2

Patuloy umano ang paggawa ng Department of Transportation (DOTr) at ng Light Rail Transit Authority (LRTA) ng ilang mga paraan na makalikom ng pondo upang makabili ng karagdang mga bagon para sa LRT-2. Ngunit ayon sa pamunuan, na dahil abutin umano ng tatlong taon o mahigit pa bago

dumating ang mga bagong tren, ay naghahanap ng alternatibong paraan ang Department of Transportation upang maisaayos ang daloy ng pila ng mga pasahero sa bawat istasyon. Ayon sa DOTr, walang tren lamang ang gumagana dahil ang isang bagon ay patuloy na sumasailalim sa Train Operating Control Panel upgrade,

habang ang isa naman ay kinukumpuni pa rin. Samantala, bilang solusyon habang naghihintay ng pondo na pambili ng bagong tren, inuutos ni Transportation Secretary Banoy Lopez sa Land Transportation Franchising and Regulatory Board (LTFRB) at LRTA na pag-aralan mabuti ang pag-isyu ng special permits sa mga Public Utility Buses upang makapagbigay ng alternatibong sasakyan ang mga pasahero. "Patuloy po ang paghahanap namin ng pondo para sa kailangang dagdag na tren para sa LRT-2. Kailangan na rin pong ma-upgrade ang iba nating tren. Pero habang inaayos po natin ito, naghahanap po tayo ng ibang paraan

para maibsan ang pila sa mga istasyon at matulungan ang ating mga komuter," ani Sec. Lopez. Layunin nito na makapagbigay ng alternatibong sasakyan ang mga komuter at mabawasan ang matinding dagsa ng mga pasahero sa mga istasyon ng LRT-2 lalo tuwing sasapit ang peak hours.

para maibsan ang pila sa mga istasyon at matulungan ang ating mga komuter," ani Sec. Lopez. Layunin nito na makapagbigay ng alternatibong sasakyan ang mga komuter at mabawasan ang matinding dagsa ng mga pasahero sa mga istasyon ng LRT-2 lalo tuwing sasapit ang peak hours.

Monday History Facts

The Vikings were the first Europeans to discover America

Half a millennium before Christopher Columbus "discovered" America, Viking chief Leif Eriksson of Greenland landed on the Island of Newfoundland in the year 1,000 AD. The Vikings under Leif Eriksson settled Newfoundland as well as discovering and settling Labrador further north in Canada.

TNT tinambakan ang Dyip

Tinambakan ng TNT Tropang Giga ang TerraFirma Dyip 116-92 sa muling pagpapatalay ng 2026 PBA Governor's Cup.

Nanguna sa panalo ng TNT si Calvin Oftana na nagtala ng 31 points habang mayroong 26 points ang bagong import na si Nick Hornsby sa laro na ginanap sa Ninoy Aquino Stadium.

Mayroon ng limang panalo at apat na tala ang Tropang 5G kung saan nasa pangatlong puwesto na sila kasama ang Converge FiberXers.

Habang ang TerraFirma ay mayroong tatlong panalo at anim na tala na nasa ikalimang puwesto.

Nasayang naman ang nagawang 27 points ni Maverick Ahanmisi para sa Dyip.

Pangulo ng Poland at Pacman, nagsama sa training ng boxing

Nagharap sa isang hindi inaasahang boxing session ang Pambansang Kamao na si Manny Pacquiao at ang Pangulo ng Poland na si Karol Nawrocki matapos magsama ang dalawa sa isang pagsasanay habang nasa Pilipinas ang foreign leader.

Ibinahagi ng dating world champion ang mga video kung saan makikitang tinuturuan niya ng mga basic na galaw sa boxing at mitt work ang lider ng Poland.

Ayon kay Pacquiao, isang malaking karangalan para sa kaniyang ang mai-pamalas ang kaniyang kaalaman sa larangan ng palakasan at makasanay ang pinuno ng Poland.

Nagpaabot naman ng pasasalamat si President Nawrocki sa pambihirang pagkakataon na makasama sa ring at makipag-sparring sa tanging eight-division world boxing champion.

Alex Eala nasa China na para sumabak sa Wuhan Open

Nasa China na si Pinay tennis star Alex Eala para sa pagsabak nito sa Wuhan Open. Ang nasabing torneo ay kaniyang pagbabalik sa Women's Tennis Association (WTA) Tour.

Ang World number 18 na si Eala ay inaasahan na makapasok sa 13th seed sa WTA 1000 tournament. Inasahan na makakaharap nito ang ilang mga nasa malalaking pangalan gaya nina Aryna Sabalenka, Jessica

Pegula, Mirra Andreceva, Linda Noskova at Elina Svitolina. Magsisimula ang singles draw ngayong Oktubre 10 habang ang main draw ay magsisimula sa Oktubre 12. Magunitang hindi nakapaglaro si Eala sa China

Open para bigyang daan ang pagsabak niya sa Asian Games kung saan nagkamit ito ng bronze medals. Huling sumabak ito sa WTA tour ay sa Singapore Open kung saan umabot lamang siya sa ikalawang round.

Grizzlies, napigilan ang comeback attempt ng Chicago Bulls

Napigilan ng Memphis Grizzlies ang comeback attempt ng Chicago Bulls, 104-100.

Pinangunahan ni Grizzlies guard Ty Jerome ng panalo ng naturang koponan, gamit ang 62.5 shooting percentage. Pagsapok si Jerome ng limang field goals kung saan apat

dito ay pawang 3-pointers.

Hawak ng Grizzlies ang 10-point lead sa pagtatapos ng first half ng laban, dahil sa magandang shooting performance ng koponan.

Gayonpaman, nagawa ng Chicago na ibaba ang kalamangan sa tatlong puntos, pagsapit ng 3rd quarter,

dahil sa impresibong performance ni Bulls forward Caleb Wilson.

Pinilit pang burahin ng Bulls ang natalabing 3-point lead sa 4th quarter, nunit napigilan ito ng Memphis sa huling mga minuto ng laban.

Sa pagkatalo ng Bulls, gumawa

ng 21 points si Wilson habang 17 big points naman ang naipasok ng guard na si Norman Powell.

Ito ang ikalawang panalo ng Memphis ngayong preseason, hawak ang 2-1 na kartada. Hawak naman ng Bulls ang 1-1 win-loss record.

LeBron James at 76ers, kinapos sa unang pre-season game vs Nets

Yumukod ang bagong-bihis na Philadelphia 76ers laban sa Brooklyn Nets, 114-108, sa kabila ng magandang ipinakitang laro ng NBA superstar na si LeBron James sa kaniyang unang pre-season game para sa koponan.

Nakatala ang 41-taong-gulang na all-time leading scorer ng 10 puntos, apat na rebounds, limang assists, at isang steal sa loob ng 18 minuto sa

unang kalahati ng laro, kung saan napamalas agad nito ang mahusay na pakikipagtulungan sa mga bagong kakampi sina Tyrese Maxey at Jaylen Brown.

Pumirma si James ng dalawang taong kontrata sa Sixers ngayong Hulyo matapos ang walong taon sa Los Angeles Lakers, sa layuning tulungan ang Philadelphia na makuhang unang

kampeonato ng franchise mula noong 1983.

Sa kabila ng kabiguan sa pre-season, nananatiling positibo si Head Coach Nick Nurse sa nakitang galing ng kaniyang mga starters habang naghahanda ang koponan para sa pagbubukas ng regular season laban sa kampeon New York Knicks sa Oktubre 20.

EJ Obiena balik na sa world top 10 ang ranking

Nakabalik na sa top 10 sa world ranking si Pinoy pole vaulter EJ Obiena. Subukan Track.

Nasa pang-10 puwesto na si Obiena ilang araw matapos ang ginanap na Asian Games sa Japan.

Pinakamataas na ranking na nakuhang nito ay ranked number 2 at ito ay natanggal

sa top 10 matapos magtamo ng injury. Labis itong natutuwag dahil sa pagkakabalik niya sa top 10 pole vaulter sa buong mundo. Magugunitang nagkamit si Obiena ng gintong medalya sa katatapos lamang ng Asian Games na ginanap sa Aichi-Nagoya Japan.

Cone inamin na kulang ang mekanismo para pakawalang ng ilang overseas player sa paglalaro sa Asian Games

Inamin ni Gilas Pilipinas head coach Tim Cone na kailangan ng Pilipinas ang mga manlalaro mula sa ibang bansa.

Sa ginawang pagdinig sa Senate Committee on Sports na pinangunahan ni Senator Bong Go, na tinanong ng Senador kung ano ang dahilan ng hindi matagumpay na kampa-nya ng Pilipinas sa Asian Games.

Sinabi ni Cone na nahirapan silang pagsamahin

ang mga manlalaro dahil sa kakulangan ng mekanismo na nagagantiya na ang mga overseas-based players ay papakawalang ng kanilang mga mother ball clubs.

Ilan sa mga tinukoy nito ay sina Kevin Quiambao, Carl Tamayo, AJ Edu, Dwight Ramos at Kai Sotto na may kaniya-kaniyang koponan sa ibang bansa.

Hindi aniya gaya ng Olympics, FIBA World Cup, at FIBA Asia Cup ay inoobliga ang mga clubs

gaya ng Japan, Korea na pakawalang ang kanilang mga Filipino imports.

Dagdag pa ni Cone na gumawa ng hakbang ang Samahang Basketball ng Pilipinas (SBP) sa mga basketball clubs sa ibang bansa subalit hindi sila pinayagan.

Giit pa ni Cone na magpapatuloy ang nasabing hakbang hanggang walang magandang mekanismo ukol sa pagpapakawala ng mga manlalaro sa ibang bansa.

Iran ikinagalak ang pagtanggap ng US ng kanilang wrestling team

Ikinagalak ng Iran ang bukas na pagtanggap ng kanilang national wrestling team na nasa United States.

Lalahok ang Iranian Greco-Roman team sa U23 World Wrestling Championships na gaganapin sa Las Vegas.

Dumating ang grupo sa New York at sila ay bukas na loob na tinanggap doon.

Nitong Martes ng inaprubahan ng US ang visas ng buong Iranian delegation maliban sa isang coach na nagkaroon ng problema sa kaniyang mga dokumento.
